

LIVELY TOURS AND TALKS
HEALTH AND SAFETY POLICY
COVID-19

Your health is our top priority, and we have put special measures in place to keep all guests safe both during and after your tour.

Cloth Face Coverings - The CDC recommends that everyone wear cloth face coverings in settings where social distancing (6-feet from others) is difficult to maintain regardless of whether they are sick or have cold symptoms. All persons should wear face coverings while in a vehicle and passengers will sit in locations to maximize the distance between one another. When outside a vehicle, if appropriate social distancing can be maintained, a cloth face covering need not be worn. We ensure that all staff members will be wearing the necessary face covering and gloves as necessary.

Stringent Cleaning – We've increased the frequency of disinfecting of hard, non-porous "high-touch surfaces" and areas before and after each tour. Hand sanitizer containing a minimum of 60% alcohol will be available to all our guests.

Social Distancing – Guest will stay a safe 6-foot distance during all points of the tour. Please avoid direct physical contact with anyone outside your immediate "household" group.

Wellness Checks – Employees are required to perform daily self-wellness checks, including temperature checks, to ensure they are healthy and symptom-free. If the employee has any symptoms they may not conduct the tour and the tour will be canceled.

If you or anyone in your "household" group is experiencing symptoms, please let us know and do not go on the tour. We will work directly with you to cancel or reschedule your tour. You will not be charged for the tour.

We have taken enhanced health and safety measures for you and other guests. You must follow all posted instructions while touring with Lively Tours and Talks.

An inherent risk of exposure to COVID-19 exists in any public place where people are present. COVID-19 is an extremely contagious disease that can lead to severe illness and death. According to the Centers for Disease Control and Prevention, senior citizens and guests with underlying medical conditions are especially vulnerable.

Please answer the following questions.

If you answer yes to any of the questions, please do not participate in the tour. You will not be charged for the tour.

Have you had any recent know potential exposure (household contact or close contact within 6 feet) to anyone with COVID-19? Y N

Have you had COVID-like symptoms* or fever (temperature of 100.4° F or higher) within the last 72 hours including today? Y N

Have you had testing done and awaiting results to see if you have COVID-19? Y N

Have you been diagnosed with COVID-19? Y N

Let's keep each other healthy and safe.

By touring with Lively Tours and Talks, I voluntarily assume all risks related to exposure to COVID-19.
